

R-Club: Welcome presentation

Félix Cuneo
University of Bern - ISPM

December 16, 2019

BACKGROUND

Goals

- ▶ Networking : who has expertise on what
- ▶ Sharing : presenting a specific knowledge on R
- ▶ Creating material : having a depository (where?) where each of us can benefit sometimes

FORMAT

If the format limits to presentation of package, the club will probably die of itself within a few month

- ▶ R presentation (e.g., This package is amazing, everyone should know about it !)
- ▶ Work in progress (e.g., I am doing that, what do you think ?)
 - ▶ Are we also some sort of statistic-club ?
- ▶ R challenge (e.g., How to do that ?)
- ▶ R clinic ?

FORMAT

- ▶ 20 min + 10 min discussion
- ▶ Some simple reproducible example for the package presentation.
